

# ACRIFAB STEREO MICROSCOPE

MODEL : MC-H7S-4KHU

# FEATURES & SPECIFICATIONS

Introducing our new designed universal sliding base series for stereo microscopes, developed in response to customer demands.

This innovative base offers anti-static and high-temperature resistance, precise positioning, and corrosion resistance. The base is versatile and compatible with various microscope models, with dimensions of 300\*400mm. It features a built-in sliding guide rail, allowing the microscope to move laterally with a sliding range of 290mm.

## SPECIFICATION

Main Lens Tube Magnification	0.6-6.0X with zoom ratio for ensuring focused image planes
Optical Magnification	6.0-60X (optional auxiliary objective)
Sturdy Metal Base	380X260mm, Metal Column: H 260mm $\phi$ 32mm
Adjustable Focusing Bracket	50mm lift range with a handwheel for precise adjustments
Illumination	5W LED lamp with adjustable brightness
Photography Interface	0.5X, C-type interface with adjustable focus
External Connectivity	HDMI + USB output for connection to high-definition monitors or computers
Camera Features	4K imaging, local zoom, preview, same-screen comparison, image flip, U disk storage, electronic zoom capabilities
Universal Sliding Base Dimention	300*400mm
Sliding Range of Base	290mm

## FEATURES

- Precision slide design
- Anti-static and high-temperature resistant
- Precise positioning
- Versatile base compatible with various microscope models
- Built-in sliding guide rail for smooth lateral movement

## IDEAL FOR

- Electronic repairing
- Soldering and welding
- PCB inspection
- SMT testing
- Electronic components coating
- Surface treatment analysis
